Subject: RE:drug lab meeting

Hi Julie, A chemist came to me today with serious concerns about the status of ASD and her role with the Drug Lab. They claim there are serious morale issues with the staff in general. This is the third person to come me with questions. We need to have a general staff meeting to discuss the current situation in the Drug Lab, and also moving forward. I can't answer their questions. Thanks CBS

Subject: Modification to QC/QA review

Good Morning All,

In an attempt to be more efficient and to return important QC materials to the laboratory in a timely way, I am making the following changes to the way in which we will review QC documents.

- CT/Environmental Laboratories – on the first Monday of the month we will review documents in lieu of the scheduled weekly meeting. If it is a Monday holiday, we will review on Tuesday.
- Lead Lab and Drug Lab – Sydney will schedule individual meetings with each laboratory. My preference is to have only 1 lab QC meeting/week. If there is a day of the week or week of the month that is better than others, let me or Sydney know and we will try to accommodate.

Thanks, Julie

Julianne Nassif
